The Moving Picture Boy entry:

"Bettles, a tough, square-faced boy with riding skills, was thundering across our screens four years before Kelly Reno of **"THE BLACK STALLION"**. If not such a dazzling rider as Reno, he was at least as good an actor, and

could be very touching in the understated Australian manner. The Disney studio took him up, and his honest chips of eyes and pleasingly unreconstructed teeth shone through six leading roles."

In **"BORN TO RUN"**
