In the post-**"Twin Peaks"** series **"Eerie, Indiana"**, from director Joe Dante et al, he played the loyal henchman to Omri Katz, latest arrival in the title midwestern township, which happens to be "the centre of weirdness for the entire planet". Nothing else is known about him.

Shenkarow left, with Omri Katz, locking horns with weirdness wherever it may lurk, which turns out to be just about everywhere.
