Speelfilm Encyclopedie review:

“The pupils and teachers at a girls’ boarding school are tormented by strong sexual yearnings, and give free rein to these, both in their imagination and in reality. A narrative element is completely absent, what remains is an endless series of sex scenes. Dull and boring. 1/2* ”

No further information currently available. Damboise is perhaps an unfortunate handle for a porn actress. The *Speelfilm Encyclopedie* is, so far as I'm aware, unique among mainstream film guides in that it does not exclude skin flicks and “soft” porn titles such as this from its reviewing, though hardly any of them rate a kind word. They are included in this archive also, as evidence of our culture’s hypocrisy on the tabu of “under-age” sex. Heterosexual pornography has always insinuated the callow youth of its “maidens”, and indulged in fatuous schoolroom fantasies of this kind, where the under-16s are all patently gagging for defloration, and none too particular who provides that service. These tawdry shag operas deserve to be shown in tandem with some of the strident “sex abuse” tracts of a decade later, merely to stun audiences with the juxtaposition of treatment.

See subject index under [BOARDING SCHOOL / PUBLIC SCHOOL](#), and under [SEX & SEXUALITY](#) for a sub-section on what commentators still describe as “gymslip porn”.
