No further information currently available. The vehicle-mounted camera added a whole new kinetic dimension to film action. The small mental leap required between placing a camera on a railway platform to watch a train arriving, and placing the camera on an arriving train, took several decades, but it released cinema from the confines of a claustrophobic set into the wide moving world. That same month another British company released “**A SCOUT'S STRATEGY**”. Crooks far and wide began to tremble.
