The boy is sporting a damnation "Children in Need" red nose – so he deserves whatever horrors may befall him.

CVMC video retail/rental website review:

"A man with a questionable past befriends a boy roughly twelve years of age. This creates a variety of complications for the lad and his family, but perhaps by the time the ending credits roll our young hero can learn a thing or two about himself and others. Think of **"CHILDREN'S ISLAND"** meets **"THE HIDEAWAY"** if you want an idea of its "feel."

Rated NR: adult themes [sic]; brief/moderate nudity; sexual themes; violence
 Language: Norwegian (with English subtitles)
 Categories: Boy Films, Little to Preteen, Adolescent, Coming-of-Age, Drama, First Love. "

Above – one of the horrors that may befall him....

No further information currently available. Not to be confused with the 1981 Danish title "[KNIVEN I HJERTET](#)" ("Knife in the Heart"). The plot description is too vague for analysis. The central boy is unidentified.
